

## **Do you want to develop your design skills and learn to apply them in a business context?**

### **Who we are**

Kinetik Solutions is a boutique UK-based consultancy firm that delivers business transformation, process excellence and change management in operational settings. More details about the company can be found at our website [www.kinetik.uk.com](http://www.kinetik.uk.com).

We work with FTSE 350 clients from a variety of sectors such as: consumer, business-to-business services, automotive, manufacturing, public sector, and health. Our past clients include Hertz, EMI Music, Nations Trust Bank and the Office for National Statistics.

### **The role – Designer (Intern)**

We need ongoing support for our already established marketing videos, graphics and website updates. We also need support in new product design, marketing collateral and branding. The amount of work is variable, anywhere between 5-10 hours per month. The right person will have a strong eye for design in a business context, and be highly motivated by digital.

### **Requirements**

The successful applicant should be available to start immediately and should have:

- ◆ Knowledge of InDesign and After Effects applications
- ◆ Experience of WordPress websites
- ◆ Knowledge of photography/video shooting
- ◆ Good IT skills
- ◆ Studying for a degree/course that is related to Design
- ◆ Have a minimum of 6 months work experience or a product portfolio
- ◆ Has own computer, internet access and phone
- ◆ A UK citizen or with the right to work in the UK

If this role is of interest please send your CV and cover letter to [bebetter@kinetik.uk.com](mailto:bebetter@kinetik.uk.com), clearly stating the job title on the subject line.
